### Interim Report 2014

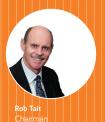

## Chairman's Report

# A word from the top

The Directors of Horizon Energy Distribution Limited ('Horizon Energy') report an unaudited net profit after tax for the six months ended 30 September 2014 of \$1.8 million. Although this result is significantly lower than the net profit after tax of \$4.2 million for the six months to 30 September 2013, the prior period result included one off receipts relating to gains in interest rate hedging of \$1.0 million and a \$0.5 million gain relating to the Aquaheat acquisition.

The current six months results have been impacted by the following factors:

- A decline in the after tax profit excluding interest rate hedging of the regulated electricity distribution business to \$1.6 million from \$2.3 million in 2013 due principally to the \$0.5 million claw-back resulting from the Commerce Commission's 2012 default price-quality path decision plus higher depreciation expenses;
- Legal costs of \$0.4 million post tax relating to a working capital issues dispute arising from the 2012 acquisition of the Aquaheat business; and
- Accounting for non-cash losses of \$0.3 million (post tax) in the mark to market value of the Company's interest rate derivative portfolio as at 30 September 2014. This compares to a gain of \$1.0 million (post tax) reported for the same period last year.

\$1.8 million

Unaudited net profit after tax for the six months ended 30 September 2014

## **ESP** Technologies

In July 2014, we acquired the business assets of Energy Systems Professionals NZ Limited

\$150.1 million

Total assets of the Company

Operationally the regulated electricity distribution business continues to perform well and will deliver the year's capital and maintenance spend and remains within the quality thresholds set by the Commerce Commission. The Commerce Commission has recently published the final cost of capital determination for the default price-quality path as being 7.19% at the 67th percentile. This is a reduction on the 8.77% WACC at the 75th percentile that was previously applied within the default price-quality path. This change going forward will continue to adversely impact the profitability of the electricity distribution business. The Commerce Commission will be releasing its final decisions in November 2014 relating to the 2015-2020 default price-quality path, following which the Board will review its approach to ongoing investment in the network.

The non-regulated businesses have contributed a positive return for the six month period.

The Auckland and Wellington operations of Aquaheat are performing well and are well placed to deliver the year end forecast. The Christchurch operation has had a difficult six months of trading which has been impacted by the competitive environment and the delays in larger projects being tendered. There has of late been an increase in tendering activity which should see the business secure forward work that will contribute to the Group's earnings going forward. The service businesses are performing very well and are well positioned to deliver a sound result for the year.

Our Tauranga based business, Stewart Browne Electrical, operates in a market that has become increasingly competitive. This business is entering a new phase of growth and development and has recently been enhanced with the appointment of a new Operations Manager.

In July 2014, we acquired the business assets of Energy Systems Professionals NZ Limited trading as ESP Technologies. This business significantly increases the capacity and capability of our external business unit within the Eastern Bay of Plenty and brings with it a diverse range of services that covers electrical, mechanical, plumbing and refrigeration disciplines.

Continuing uncertainty and instability imposed by ongoing intrusive regulatory change in our core electricity distribution business profitability reinforces the strategy of pursuing diversification into non-regulated businesses.

Health and safety of employees, contractors and the public continues to be of paramount importance. We are ensuring that all safety hazards and risks are identified, and either eliminated, minimised or isolated. As a Company, we endeavour to maintain and continually enhance our safety systems, our training competencies and compliance practices for the benefit of our employees, contractors and the wider community. During the year the Company has successfully commissioned a new Group wide safety system that is designed to provide a proactive platform for managing all safety matters.

The 2014-15 full year after tax result is forecast to be around \$4.3 million. This year end forecast is \$2.9 million below the March 2014 result which included a total of \$2.2 million in receipts that will not be repeated in the current year. Improved gains from a full twelve months trading of the service division of Aquaheat and nine months of trading from ESP Technologies will partially offset the reduced returns from the electricity distribution business.

The financial position of the Group remains strong with total assets of \$150.1 million and term debt of \$40.5 million.

The Directors have resolved to pay a fully imputed interim dividend of 6.0 cents per share on 12 December 2014 to all shareholders recorded on the register at 5.00pm on 4 December 2014. This is on par with the previous interim dividend of 6.0 cents per share and reflects the Directors' view that a conservative interim dividend is prudent at this time.

Rob Tait
Chairman

#### **GENERAL INFORMATION**

#### Reporting Entity

The principal activities of Horizon Energy Distribution Limited ('Horizon Energy' or 'the Company') and its Subsidiaries ('the Group') consists of owning and operating an electricity distribution network; an electrical contracting and infrastructure construction business, both in the Eastern Bay of Plenty, and a nationwide heating, ventilation, and cooling construction and servicing business. The Group consists of the Company and its subsidiaries Horizon Services Limited and Aquaheat New Zealand Limited. The Company and Group are designated as a profit-oriented entity for financial reporting purposes. All operations take place within New Zealand.

The Company is a limited liability company incorporated and domiciled in New Zealand. The address of its registered office is 52 Commerce Street. Whakatane.

The Company is listed on the New Zealand Stock Exchange.

These Interim Financial Statements are for the six months ended 30 September 2014 and were authorised for issue by the Directors on 20 November 2014.

#### 2.

#### **ACCOUNTING POLICIES**

Horizon Energy Distribution Limited is registered under the Companies Act 1993 and is an issuer in terms of the Securities Act 1978. These Financial Statements have been prepared in accordance with the requirements of the Financial Reporting Act 2013 and the Companies Act 1993.

These Unaudited Interim Financial Statements have been prepared in accordance with New Zealand Equivalent to International Accounting Standard 34 Interim Financial Reporting as well as International Accounting Standard 34 Interim Financial Reporting and should be read in conjunction with the financial statements and related notes included in the Group's Annual Report for the year ended 31 March 2014. Except as described below, the accounting policies and methods of computation are consistent with those used in the most recent Annual Report which can be obtained from either the registered office of the Company or www.horizonenergynet.nz.

There were no standards, amendments and interpretations to existing standards that were adopted by the Group from 1 April 2014.

#### FINANCIAL INSTRUMENTS

The Group uses interest rate swaps to manage interest rate risk on its term bank loans. Derivative financial instruments are initially measured at fair value on the contract date, and revalued to fair value at subsequent reporting dates. The Company has elected not to designate its derivative financial instruments for hedge accounting. Therefore, they are classified as financial instruments at fair value through profit or loss with changes in the fair value recognised in the Statement of Comprehensive Income. These gains and losses are non-cash and are a by-product of the Company's Treasury Risk Management Policy. The Directors review the Treasury Risk Management Policy at least annually and monitor compliance on a monthly basis. The Directors believe the policy reflects prudent risk management.

The accompanying notes form an integral part of these interim financial statements.

#### Notes to the Financial Statements o

#### Notes to the Financial Statements

#### 4. OPERATING SEGMENTS

Segment information is presented in respect of the Group's business. The Group operates in one geographical region being New Zealand.

For the six months ended 30 September 2014

#### **Operating Segments**

The Group comprises of the following main operating segments:

- Electricity Distribution
- Heating Ventilation and Air Conditioning (HVAC) Construction and Servicing
- Electrical Contracting and Servicing

The chief operating decision maker assesses the performance of the operating segments based on operating profit/(loss) after tax. Intersegment pricing is determined on agreed terms and conditions.

	Electricity	HVAC Construction &	Electrical Contracting		
	Distribution	Servicing	& Servicing	Elimination	Group
	\$000	\$000	\$000	\$000	\$000
Six months ended 30 September 2014

#### Notes to the Financial Statements of

#### Notes to the Financial Statements

#### 5. DIVIDENDS (CENTS PER SHARE)

#### Amounts recognised as distributions to Equity Holders in the period:

GROUP
30-Sep-13
Cents
4.0

For the six months ended 30 September 2014

The final dividend for the year ended 31 March 2014 of 9.0 cents per share was paid in June 2014. All dividends have full imputation credits attached.

#### 6. CONTINGENT LIABILITIES

#### **Electricity Purchase Commitment**

Dividend for the Period

In March 1999, as part of the sale of the Kapuni Generation assets, the Company assigned its rights under a long term contract for the purchase of electricity and remains contingently liable to purchase this electricity until the end of the contract (2017) should the purchasers fail to perform their obligations under the contract. In the event any claim is made against the Company under this long term contract for the purchase of electricity, the Company will have a claim against the purchaser of its Kapuni Generation assets under the relevant sale documentation.

#### Breach of the 2012 Regulatory Default Price Path

In 2012 Horizon Energy breached section 87(1)(a) of the Commerce Act 1986 ('the Act') by contravening a price-quality path requirement applying to regulated goods or services for the 2012 assessment period ('the Breach'). Horizon Energy accepts the Breach, which occurred due to mitigating circumstances which are explained in its 2012 Compliance Statement.

During the reporting period, Horizon Energy has reached an agreement with the Commerce Commission ('the Commission') regarding the final value of the settlement. The terms of the settlement require Horizon Energy to reduce 2015-2016 prices by \$727,934. This will be by way of compensation to retailers operating on the Horizon Energy network through a reduction in the 2015-2016 tariff pricing. The Company provided \$380,000 for the Breach in the year ended 31 March 2014. A further \$180,000 has been provided for in the six months ended 30 September 2014.

#### Unclaimed Dividends

As provided for under clause 27.8 of the Company's constitution, unclaimed dividends now total \$126,227 (2013: \$110,466). Subject to compliance with the solvency test, the Company shall pay the dividend or other monetary distribution to the person or persons producing evidence of entitlement to these dividends.

#### Construction Contract Performance Bonds and Guarantees

As part of the terms of undertaking construction contracts the Group is required, in some cases, to provide additional security in the form of Bank Performance Bonds or Parent Company Guarantees. The ability of the clients to call upon these securities is governed by the terms of the construction contracts but is generally contingent upon non-performance under the contract. As at 30 September 2014 the total value of performance bonds issued is \$1.0 million (2013: \$1.0 million) and the total value of Parent Company Guarantees is \$12.2 million (2013: \$12.2 million).

#### 7. COMMITMENTS

#### Capital expenditure contracted for at 30 September 2014 but not yet incurred is:

	GROUP	GROUP	GROUP
	30-Sep-14	30-Sep-13	31-Mar-14
	\$000	\$000	\$000

For the six months ended 30 September 2014

#### 9. BUSINESS COMBINATIONS

#### Acquisition of Energy Systems Professionals NZ Limited

On 1 July 2014, Horizon Energy Distribution Limited (through its subsidiary Horizon Services Limited) acquired the business assets and certain liabilities of Energy Systems Professionals NZ Limited.

The investment is consistent with Horizon Energy's strategy to develop its non-regulated revenue streams. The new business trades under the name ESP Technologies and complements the existing electrical services business providing farming, electrical, HVAC and plumbing solutions.

#### Details of Net Assets and Goodwill Acquired

The Company is currently determining the fair values of the net assets and goodwill acquired, and therefore the amounts as at 30 September 2014 are provisional. In particular, the resolution of the following matters may affect the provisional values assessed by the Company:

The consideration paid is subject to adjustment due to changes in working capital items up to the date of acquisition. The Company is working with the Vendor to finalise the consideration amount in accordance with the terms of the Sale and Purchase Agreement.

The values assigned to Motor Vehicles are the revalued amounts as determined by reference to market data.

Deferred tax may be recognised arising from the resolution of the matters above.

#### Notes to the Financial Statements of

#### O Notes to the Financial Statements

#### 9. BUSINESS COMBINATIONS continued...

	GROUP
	Provisional
	30-Sep-14
	\$000
Consideration on Acquisition	927
	Fair Value
	30-Sep-14
	\$000
Consisting of:	
Receivables	479
Inventories	182
Construction Work in Progress	34
Plant and Equipment	79
Motor Vehicles	243
Total Assets Acquired	1,017
Trade and Other Payables	(318)
Employee Liabilities	(94)
Total Liabilities Acquired	(412)
Fair Value of Net Assets Acquired	605
Goodwill on Acquisition	322
Total Purchase Consideration	927

Other costs associated with the acquisition of \$46,930 incurred in 2014 and \$62,193 incurred in 2013 (total: \$109,123) have been expensed and are recorded in Operating Expenses in the Statement of Comprehensive Income.

Goodwill is attributable to the presence in the market place and workforce of the acquired business and is not a separately identifiable intangible asset. Goodwill related to this business combination is non-deductible for income tax purposes.

#### Consolidation Treatment

Revenue Net Profit after Tax

100% of the income, assets and liabilities have been consolidated within the Group results from 1 July 2014.

ESP Technologies is a division of Horizon Services Limited. The amounts included in the Consolidated Statement of Comprehensive Income and in the Electrical Contracting and Servicing operating segment for the three months post acquisition to 30 September 2014 include:

30-Sep-14
\$000
1,109 20

For the six months ended 30 September 2014

It is impractical for the Group to obtain reliable revenue and profit/(loss) figures for ESP Technologies prior to acquisition, therefore the disclosures as if the acquisition occurred from 1 April 2014 have not been made.

#### 10. EVENTS SUBSEQUENT TO BALANCE DATE

#### **Dividend Declaration**

On 20 November 2014 the Directors declared an interim dividend of 6.0 cents for the 2015 year (2014: 6.0 cents) per ordinary share. As this event occurred after the reporting period the financial effect has not been recognised in the financial statements.

#### Purchase of Hawkins Refrigeration

On 8 October 2014 the Directors approved the acquisition of the operations and business assets of Hawkins Holdings (2007) Limited and Hawkins Refrigeration Tasman Limited, together known as 'Hawkins Refrigeration'. Hawkins Refrigeration provides industrial refrigeration services in the South Island. This business was acquired by Aquaheat New Zealand Limited, a wholly owned subsidiary of Horizon Energy and will be integrated into the HVAC Construction and Servicing operating segment of the Group. The settlement date was 3 November 2014.
